## **RS&H EXPANDS CENTRAL FLORIDA PRESENCE WITH OPENING OF NEW OFFICE IN DELAND**

---

**DELAND, FLA. – Sept. 18, 2008** – RS&H, one of the nation’s leading facilities and infrastructure consulting firms whose client-centered program structure provides value-added solutions to clients around the world, has opened an office at 632 North Woodland Boulevard, Suite One, in DeLand, Fla., 32720, to accommodate its growth in serving the Central Florida area. Renato J. Gonzalez, P.E., who has been responsible for managing all aspects of RS&H’s highway design practice in Orlando since 2003, will serve as office leader.

“RS&H’s expansion in DeLand reflects our continued success in delivering major projects in the Central Florida area,” says Joseph N. Debs, P.E., senior vice president and director of RS&H’s transportation and public infrastructure programs.

“Key to the establishment of an office in DeLand was the identification and assignment of a strong local leader,” says Debs. “Mr. Gonzalez’s technical, staff development and client management skill sets will ensure that our new office will be successful in capitalizing on emerging client opportunities.”

Gonzalez has over 25 years of experience in the areas of conceptual studies, design coordination, permitting, preparation of construction documents, cost estimating and implementation of public involvement programs for a wide variety of transportation and public infrastructure projects, including roadway, interchange and limited access highway projects throughout Florida and the Midwest. He has worked as a senior project manager with RS&H for clients including the Florida Department of Transportation and the Orlando-Orange County Expressway Authority, as well as Orange, Seminole, Volusia and Brevard Counties in Central Florida.

The new office in DeLand is located within walking distance of the city's downtown area, as well as Stetson University. It will initially house a staff of four engineers and can be reached by phone at (386) 734-6024 or fax at (386) 734-6148.

**About RS&H:**

With more than 865 employees, RS&H is one of the nation's leading facilities and infrastructure consulting firms whose client-centered program structure provides value-added solutions to clients around the world. With a tradition that began in 1941, RS&H has offices in Florida, California, Colorado, Georgia, Illinois, Michigan, Minnesota, Missouri, North Carolina, Ohio, Texas, Utah and Virginia. RS&H's market sector programs include Aerospace and Defense, Aviation, Commercial, Institutional, Transportation and Public Infrastructure. Construction Engineering Inspection services (CEI) are provided through its wholly owned subsidiary, Reynolds, Smith and Hills CS, Incorporated. RS&H can be reached at 1.800.741.2014 or at [www.rsandh.com](http://www.rsandh.com).
